

# Con Edison is installing Smart Meters in our neighborhoods.

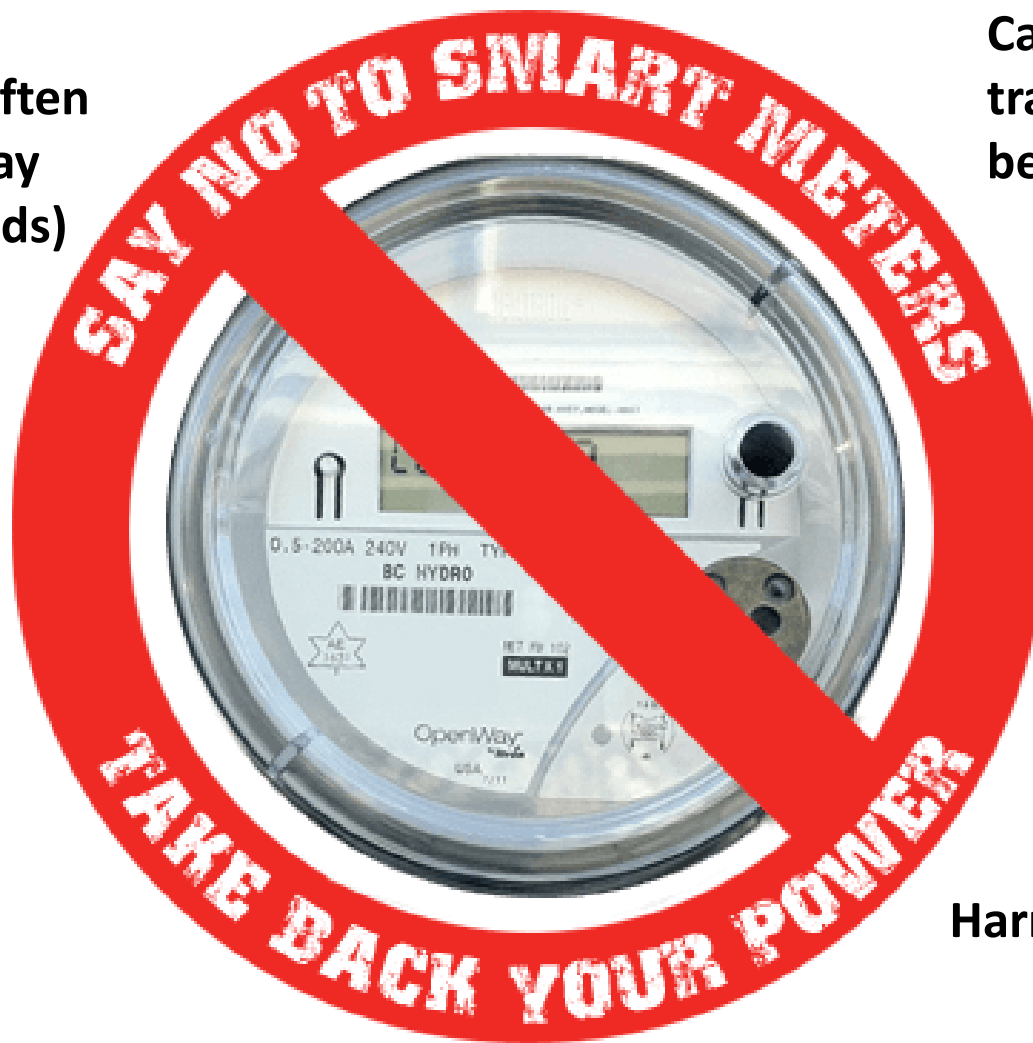

## Are you aware of the dangers?

High level radio frequencies, as often as 190,000 per day (every few seconds)

“Dirty electricity” can affect rooms 150 ft. away

Vulnerable to being “hacked”

Can cause fires, not UL certified

Can be used to track our usage and behavior patterns.

As high as 1/3<sup>rd</sup> of homeowners report higher monthly costs.

Invasion of right to personal safety, right to protect our property

Harmful to environment

**There are NO studies proving the safety of smart meters. There are thousands of studies revealing their dangers, and thousands of people reporting health hazards of high levels of pulsed radio frequencies and smart meters.**

**Protect your home and neighborhood. You can call Con Edison to refuse smart meters.**

**Call 800-576-2005.**

**Learn more. Do a search on “dangers of smart meters”. Go to [takebackyourpower.net](http://takebackyourpower.net).**

**Contact your NY State Senator, Assembly Member and NY City Council Member today. Tell them to take a stand against smart meters and 5G WiFi, which will harm our entire ecosystem.**

**Help organize.**
