

5G built right

...in front of your door

- No Public Notice
- No Public Hearing
- No Public Consent

Have you heard what is going on with wireless?

Insomnia, irritability, brain fog, cancer risk, heart disease, neurological disorders
— are they related to wireless radiation?

YES, says U.S. government-funded research, the World Health Organization, hundreds of scientists worldwide and many who have already been injured.

What can you do?

- Call your representatives at the City Council, community board, and State.
- Sign our petition for safe broadband policies:
